SPRING BUNDLE PACK

How-to *wake it up, feed it, keep it green*

IN THE PACK

WET WIZARD 1 L wetting agent
wets up to 500 m²

+

WAKEY WAKEY 5 kg · N22-P4-K7
feeds up to 200 m²

+

LAWN LAGER 1 L liquid feed
feeds up to 500 m²

Start when: Soil 14°C or warmer · Grass greening up · First mow is due *Usually late Aug to early Oct*

STEP BY STEP

WET FIRST, SO THE FEED GETS DOWN TO THE ROOTS

1 DAY 1
MOW
Normal height, catch the clippings and rake out any dead growth. Never take off more than a third.

2 DAY 1
WET · WET WIZARD
Mix **40 mL per 1 L of water** (200 mL per 100 m²). Spray the whole lawn, then water in lightly.

3 DAY 1
FEED · WAKEY WAKEY
Straight after, spread **2.5 kg per 100 m²** (half the pail). Water in for about 10 minutes.

4 WEEK 4 +
TOP UP · LAWN LAGER
Same mix, **40 mL per 1 L**. Spray and water in lightly. Then **every 4–6 weeks** while it's growing.

5 WEEKS 6–8
FEED AGAIN
Second feed of **Wakey Wakey** at 2.5 kg per 100 m². Wet Wizard again before the first hot spell.

HOW MUCH FOR MY LAWN?

MEASURE YOUR LAWN, READ across

YOUR LAWN	WET WIZARD *day 1*	WAKEY WAKEY *day 1, weeks 6–8*	LAWN LAGER *week 4 +*	WATER *per spray*
50 m²	100 mL	1.25 kg	100 mL	2.5 L
100 m²	200 mL	2.5 kg	200 mL	5 L
150 m²	300 mL	3.75 kg	300 mL	7.5 L
200 m²	400 mL	5 kg · whole pail	400 mL	10 L
300 m²	600 mL	7.5 kg *	600 mL	15 L

* The 5 kg pail feeds 200 m². Bigger lawns need a second pail.

SPRAY · WET WIZARD
Day 1, before the granular. Again before hot spells

1. **40 mL per 1 L of water** (200 mL per 100 m²).
2. Spray the whole lawn evenly, water in lightly.

SPREAD · WAKEY WAKEY
Day 1, then again at weeks 6–8

1. **2.5 kg per 100 m²**, half the pail.
2. Spread on a dry lawn, water in for about 10 minutes.

MIXING YOUR SPRAYS

TWO LIQUIDS, ONE MIX

SAME DOSE, SAME PACE
Wet Wizard and Lawn Lager use the same mix. Every litre sprays 20 m².

40 mL WET WIZARD OR LAWN LAGER + **1 L** WATER = **20 m²** OF LAWN

YOUR SPRAYER	WET WIZARD OR LAWN LAGER	SPRAYS
1 L hand	40 mL	20 m²
2 L pump	80 mL	40 m²
5 L pump	200 mL	100 m²
10 L knapsack	400 mL	200 m²
15 L knapsack	600 mL	300 m²

- **Measure it.** Use a measuring cup or syringe kept just for the garden.
- **Same pace every spray.** Mark out 4 m × 5 m (20 m²) and practise with 1 L of plain water first.
- **Cool of the day.** Early morning or late arvo, never a dry lawn in the heat.
- **More isn't greener.** Stick to the rate, and always water it in.

KEEP IT ROLLING

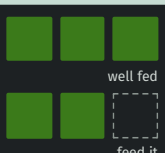
AS LONG AS THE GRASS IS GROWING

WAKEY WAKEY
Every 6–8 weeks while it's growing hard.

LAWN LAGER
Every 4–6 weeks, in between the granular feeds.

WET WIZARD
Before a hot spell, or when water stops soaking in.

PRO TIP
YOUR CATCHER IS A FUEL GAUGE
If you normally fill three boxes of clippings and start getting two or less, your lawn is ready for a feed. It tells you weeks before the colour does.



SAFETY Gloves and eye protection when you mix. Keep all products out of reach of kids and pets. Store cool and out of the sun.

Always read the labels before use and apply as directed. Timing suits most of southern and eastern Australia.
